Mar. 1 – April 30, 2026	5,531	\$75.85M	442	\$26.87M

### Arbitration

- The 21 deals in arbitration as of April 30 have been consolidated into three arbitrations

### Since the NIL Go platform launched on June 11, 2025, and through April 30, 2026:

- 45% of deals submitted to NIL Go were resolved within 24 hours. The significant increase in Associated deal volume since January has led to a decrease in the percentage of deals resolved within 24 hours of submission, since Associated deals require additional review.
- 66% of deals reached resolution within seven days following completion of all information fields in NIL Go. In many of the remaining 34% of deals, the CSC must seek additional information from the student-athlete, deal sponsor, or institution via communication outside of the software platform to make a determination on the deal. The CSC often is able to make determinations on these deals within seven days of receiving such additional information, but NIL Go currently does not allow us to readily calculate this percentage. The CSC is working to update the platform in the coming months so that all or most communication occurs within NIL Go and those percentages can be calculated precisely.
